## THE ORANGERY AT HAYNE HOUSE

Where our marquee currently stands, a stunning new Orangerie is being built with completion due for Spring 2018. We have commissioned Hamptons, one of the finest manufacturers in the business, to design and construct an elegant and exclusive free standing Orangerie in the grand classical style to suit the manner of our 18th century building.

The aim of the Orangerie was to create a space which celebrates the outdoors, whilst bringing it indoors. With plenty of natural light flooding in through the doors and glass lanterns, the Orangerie forms a natural link to the gardens whilst providing a space which is stylish, charming and practical for any time of the year.

Ventilation and insulation, combined with under-floor heating means that the Orangerie is incredibly versatile, and from Spring 2018 will simply be the place to host your wedding at

any time of year. Your wedding theme can be styled around the seasons to reflect the mood of the garden: gentle fresh colours and light accessories for Spring, brilliant vibrant hot citrus in the Summer, warming mellow tones for Autumn and rich dark tones with flickering candelabras in Winter.

The large bank of windows, floor of natural stone and ivory painted walls will provide you with the perfect blank canvas but will also offer an incredibly impressive backdrop. All these elements – light, colour, closeness to nature, the use of natural materials and honesty of construction will lead to a relaxed and flexible environment. Ideal for couples looking for an elegant outdoor wedding without the fear of unpredictable British weather. It will lend itself wonderfully to Bohemian weddings and refined, minimal weddings alike.
