## Your Wedding,

Using the latest digital technology we take as many formal and informal photographs as required including any special requests.

## Your Images,

We create images that will be a lasting reminder of your wedding day. You may have as many images in your Traditional album as you like, including black & white, special effects, montages and multiple images.

## Your Album,

After the wedding we prepare a unique selection book for you to choose your photographs and show to family and friends. Once you have made your selection, we take your order and discuss your requirements to produce your own, unique, hand finished, wedding album.

### Deluxe Wedding

Traditional coverage of your wedding  
in a modern style. Includes all the  
photographs that you would expect and  
some that you don't.

Starting with the bride, her family  
and attendants, to the church for the  
groom, his family, best man and ushers.

Then the bride's arrival, signing the  
register. Outside for the family  
groups and on to the reception.

Once there, we will take  
some romantic pictures, finishing with  
cutting the cake. We then leave  
you to enjoy the rest of your day.

### Royal Wedding

A record of your whole wedding day.

The same coverage as our deluxe  
service, but we stay at the reception,  
to capture the speeches and informal  
images of the wedding party as they  
enjoy the evening's entertainment,  
to that special first dance as  
husband and wife.
